

ACH PROCESSING

Want to eliminate “the check’s in the mail” excuse during a collections call? Want to accept and guarantee an ACH payment at the Point of Sale? With UTA’s ACH service, collections and Point of Sale transactions can be made easily over a virtual terminal while completely eliminating any returned payments with our “guarantee” feature. What’s more, funds are deposited in your account and accessible within one to two business days!

Enables you to accept payments from your customer’s account quickly and safely in a secure online environment.

- Accelerates cash availability
- Simple web-based application, no software or hardware to purchase
- Automated feature or recurring payments
- Virtual Remittance Feature: eliminate manual entry of supporting data
- Custom transaction reporting and payment options
- API support across multiple developmental languages and platforms
- Works with your current banking relationship
